

## Reese A.E. JONES

### PROFILE

Innovative and passionate **Software Engineer** with many years of experience consistently delivering high-quality solutions. Adaptive to handling complex challenges with strong problem-solving abilities and able to manage projects effectively. Proven success in code integration and management, with a commitment to secure coding practices, informed by cybersecurity experience and a background in code analysis and optimization research.

### CONTACT DETAILS

(540) 621-9514  
800 Semmes Ave, Apt. 901,  
Richmond VA

### SKILLS

- Python, C++, Golang, Java, C#
- Node.js, Typescript
- JSON, SQL, XML, HTML
- Docker, Terraform, AWS, Kafka
- SQL, NoSQL, Gorm, Snowflake, Looker
- Code Efficiency, Cybersecurity

### PERSONAL INFORMATION

Citizenship: **United States**  
Languages:  
**English** (native),  
**German** (A1)

## EXPERIENCE

### SOFTWARE ENGINEER

July 2022–April 2025

*Coalition, Inc.*

- ◇ Developed Rest APIs for SaaS and APIaaS consumers in Python and Golang
- ◇ Designed synchronous event driven Webhooks service for insurance policies
- ◇ Oversaw and implemented software that managed Cybersecurity and Executive Risk insurance policies
- ◇ Implemented Kafka and AWS SNS/SQS event-based management for monitoring an internal service consumption
- ◇ Added new monitoring and synthetic testing systems/procedures
- ◇ Took up project design and management roles

### PROGRAM ANALYSIS RESEARCHER

Jan 2020–Jan 2022

*RIT Software Design and Productivity Laboratory*

- ◇ Developed a research project for publishing in ICSE 2022
- ◇ Managed and taught a Program Analysis Research Assistant for cybersecurity research
- ◇ Analysis of research papers for comparative features and results

### SOFTWARE DEVELOPER

May 2019–Dec 2019

*Rochester Software Associates*

- ◇ Added to storefront and production management interfaces (WebCRD)
- ◇ Updated and improved enterprise software for print solutions
- ◇ Implemented GDPR compliant functionality

### PROGRAM ANALYSIS RESEARCH ASSISTANT

Dec 2018–May 2019

*RIT Center for Cyber Security*

- ◇ Created multiple Java code vulnerability analysis program models
- ◇ Analysis technical research papers for new research directions and analysis improvements
- ◇ Technical writing and documentation

## EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE,  
MATHEMATICS MINOR

2022

*Rochester Institute of Technology (RIT)*

- ◇ Artificial intelligence, computer graphics, computer theory, networking, security, robotics, parallel computation, data mining, computer architecture, and systems software.

## PUBLISHED PAPERS

SALSA: STATIC ANALYSIS OF SERIALIZATION FEATURES

2020

*Formal Techniques for Java-like Programs (FTfJP 2020)*

- ◇ Built SALSA (Static Analysis for SerialIzation features) a Java software call graph analyzer.

SERIALIZATION-AWARE CALL GRAPH CONSTRUCTION

2021

*Proceedings of the 10th ACM SIGPLAN International Workshop on the State of the Art in Program Analysis (SOAP 2021)*

- ◇ Comparison of new hybrid dynamic-static callgraph construction versus other popular standards.

## HOBBIES

Indoor Rock Climbing, Running, Reading, TTRPGs, Board Games
